

NEUCO

A Centuri Company

NEUCO Overview

June 2024

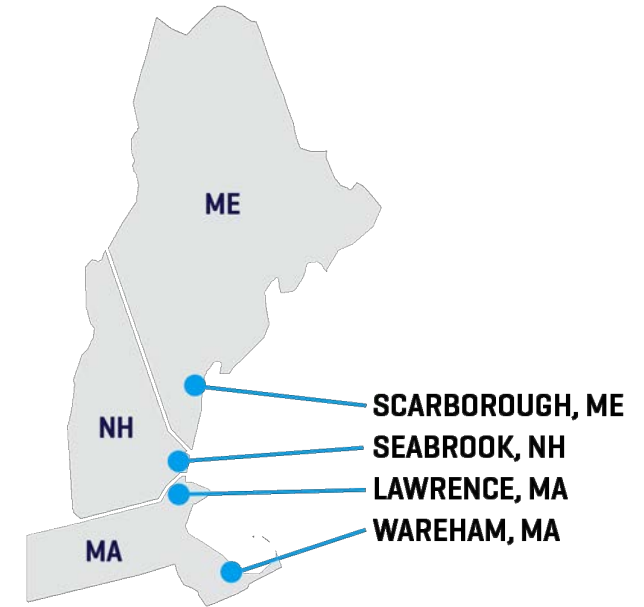

THINK AHEAD »

About NEUCO

- » NEUCO's central office, operations center, and fleet maintenance hub is in Lawrence MA. Our newly expanded training center is located in Seabrook, NH. We have easy access to connect to our customers throughout New England.
- » We proudly serve gas and electric distribution utilities, local distribution companies, municipal utilities and master meter operators by providing natural gas, electric, welding fabrication, water, sewer, and restoration services.
- » Our management of comprehensive and complex projects has built our reputation as a best-value solutions provider in the gas industry.

Capabilities

» A fully automated dispatch center supports our underground utility construction efforts in the following applications:

- Natural gas – polyethylene and steel
- Electric – buried infrastructure
- Welding fabrications
- Water
- Street restoration – milling, paving, concrete and infrared; same day paving with mobile hot boxes
- Networked geothermal piping installation
- Excavation & Backfill – broadband, fiber, telephone

Capabilities

» Neuco has the equipment and expertise for specialty services that add value to our projects.

- Vacuum excavation
- Saw cutting & Trench grinding
- Cast iron encapsulation, including customized encapsulation for LP & IP
- Horizontal directional drilling

Deliverability
